

## Dr. Jonathan Doelman

Researcher  
French National Research Institute for Agriculture,  
Food and Environment (INRAE)

### Role in LAMASUS:

Leads Work Package 8 –  
Sustainable land use management pathways and  
policy evaluation

### Biography

Jonathan Doelman is a researcher at PBL Netherlands Environmental Assessment Agency. He works with the IMAGE integrated assessment model, where his main expertise regards modelling of land use and the agricultural system, and its relation with climate change and broader environmental challenges. Most of his research is based on scenario analyses, for example with the SSP framework.
